

NEW COAL CO. TO BE NON-UNION

Mgr. Allen Announces That He Will Co-operate With Operators to Extent of Working Non-Union Men in Kentucky Mines.

A clash between capital and labor of which Evansville would be the center was forecasted Wednesday in the announcement of Henry F. Allen, head of the new Deepwater Coal & Coke Co. that he would not recognize the union.

Allen was asked whether he would attend the meeting of the coal operators of the country, which is in session at Philadelphia for the purpose of conferring with the representatives of the United Mine Workers to make an agreement as to wages and conditions for the next two years.

When he said he would not have time to attend, Allen was asked whether he would affiliate with the mine operators.

"I will affiliate with the operators to the extent that I will maintain this as a non-union field," answered Allen.

The United Mine Workers have been wanting to know what the attitude of the Deepwater company as operators of 24 mines

in Western Kentucky, and the prospective operators of others, would be towards them.

It is known that the United Mine Workers are determined to retain the organization they now have in western Kentucky and greatly to extend it.

William Houston, president of this Indiana district of the union, in which every mine is union, after a visit to Hopkins co. last year, declared that the miners are eager for organization, but that the national organization could not offer them support until after the Colorado strike has been settled.

It is known that western Kentucky is one of the districts which the United Mine Workers plan to organize thoroughly.

SENATOR SALMON

Has no Fear of Smallpox--Left for Frankfort Sunday

Senator Rom Salmon when asked about the smallpox scare at Frankfort, said:

"I have no symptoms of smallpox, and do not feel uneasy at all, as I have been vaccinated several times, and Dr. McCormack told me before leaving Frankfort that I was in no danger whatever. Senator Oliver, had a high fever on the day I came home with him, but the breaking out had not started, therefore I feel safe.

"Senator Porter, who is also down with the same disease, occupied the desk directly behind me, but I had not seen him for several days previous to his illness.

"Important business is to come up before the senate next week, so I will leave Sunday for Frankfort. But, if I begin to feel 'puny' I will 'beat it' back home, but I hardly think that I am in any danger.

Senator Salmon stated that there was some danger of the spread of the disease, as four waiters at the Capitol Hotel had been picked up and carried to the pest house with well developed cases of smallpox and he was of the opinion that some of the midny guests of that institution had been exposed to the disease.

TO TRANSFER MINES ABOUT APRIL FIRST

All arrangements for the transfer of these properties will be completed, it is announced, by that time, and the new company will be ready to take charge of the property. Four mines in Hopkins county go in the big deal, two in Madisonville, one at Morton's Gap and one at Nebo.

FOR BETTERMENT OF CONDITION OF CHILD LABOR IN KENTUCKY

Bill Offered by the Kentucky Child Labor Association

Paul M. Moore is in Louisville on business and to attend a meeting of the executive committee of the Kentucky Child Labor Association, which has under consideration a bill before the legislature designed by that association for betterment of conditions of child labor in Kentucky, to further restrict the employment of young children and to keep boys and girls in school for a longer average period than is possible now. There is nothing new or drastic in the bill, nothing which has not been tested out by several years of experience in other states. It is the result of two months' study of conditions in Kentucky made by one of the experts of the National Child Labor Committee before the bill was drafted, and every effort has been made, its sponsors say, to adapt it to actual needs, in addition to making the new law conform to the standards of other states. It is announced that "The passage of this bill (Senate Bill 91, or House Bill 220) will mean the protection of the health, the morals and the opportunities for education of hundreds of children of Kentucky now handicapped in the years of preparation." Mr. Moore is a member of the executive committee.

MANY WANT TO BE POST MASTERS.

Indications are That Forty Will Take Examination Saturday for Post Office Job.

Of the seven fourth-class post-offices in Hopkins county, for which an examination is to be conducted by Edgar Fox, of the Madisonville postoffice, in order that appointments may soon be made for postmasters at these places, the indications are that at least forty applicants will be in Madisonville Saturday for the purpose of taking the examination.

The postoffices to be supplied are as follows: Manitou, Hanson, Nortonville, White plains, Ashbyburg, St. Charles, Hsley, and Daniel Boone.

The examination will be conducted by Mr. Fox, in the West Broadway school building Saturday and he has been notified that 40 have intimated that they would be here on that date.

A Winter Cough
A stubborn, annoying, depressing cough hangs on, racks the body, weakens the lungs, and often leads to serious results. The first dose of Dr. King's New Discovery gives relief. Henry D. Sanders, of Cave-dish, Va., was threatened with consumption, after having pneumonia. He writes: "Dr. King's New Discovery ought to be in every family; it is certainly the best of all medicines for coughs, colds or lung trouble." Good for children's coughs. Money back if not satisfied. Price 50c. and \$1.00. At all druggists. H. E. Bucklen & Co. Philadelphia or St. Louis.

DR. W. P. CURRY IS SLIGHTLY INJURED

Dr. D. P. Curry, of St. Charles, who has been attending court in Madisonville, this week, was slightly injured Wednesday, when his buggy was overturned near his home. Dr. Curry had been to see one of his patients and as he started for Madisonville, the buggy slipped and was overturned, the horse becoming frightened attempted to run away. The animal was badly injured, the buggy demolished and Dr. Curry received a slight injury to his left knee. He was in the city yesterday, getting around with the aid of a cane.

JUSTIFIABLE "PORK"

WALL STREET JOURNAL

Congress has often been justly criticized for its expenditures of public money, but a bill has just passed the Senate that is worth defending. This is a measure to provide \$500,000 to combat disease among swine on the farms.

The hog is one of the most important of our farm products. The census shows that in the last census year (1909) the hogs sold or slaughtered on the farms had a total value of \$692,000,000. We only raise two crops that have a greater average value. Pork products are an important item in our foreign trade. In the fiscal year ending June 30, 1913, the exports of hog products amounted to \$122,000,000. This is the hog's share of the effort to keep gold at home.

This animal makes a market for about one fourth the corn crop, which, with the waste products of the dairy, it turns into one of the largest of the meat products. Race suicide does not trouble it. Its powers of multiplication resemble those of the rabbit or the guinea pig, and it matures in a year. Therefore, it is of great value to the farmer. But its numbers are steadily declining. Here is the census on the first of January for the last four years:

1914.....	58,983,000
1913.....	61,178,000
1912.....	65,410,000
1911.....	65,620,000

Here is a loss of 10.2 per cent in four years. Cholera is the cause of the greater part of it. The losses from this one disease last year are privately estimated at \$60,000,000. The Department of Agriculture says the disease can be controlled. It is well worth investing \$500,000 in an endeavor to stop it.

This appropriation can be called a good "pork barrel."

CHANGE OF DATE

For Reunion of Confederate Veterans to Held in Jacksonville

The date of the reunion of the United Confederate Veterans has been changed. The meeting will take place in Jacksonville, Fla. on Wednesday, Thursday and Friday, May 6th, 7th and 8th instead of April 29th, 30th and May 1st as advertised heretofore. This change was made on account of the business men not being able to be absent from home on the first of the month.

Another feature about the Jacksonville meeting will be that all of the old soldiers will be taken care of in hotels and boarding houses instead of sleeping under tents and eating at the mess tables. This will be a departure from the old method

and also an improvement. The people of the southern city are very enthusiastic about the reunion and hope to make it one of the most successful ever held.

LOCAL OPTION LAW AMENDED

"Dry" Force Frost Bill to Passage in
Senate - Salmon Supports the
Bill

Frankfort, Ky., Feb. 10.—After
suspending the senate rules
today, the "dry" force forced to a
passage the Frost bill, amending
the county and local option law
so that it would require only 25
per cent of the voters of an en-
tire county to call a election in-
stead of 25 per cent of the voters
of each precinct as at present.
The vote was 24 to 12 in favor of
the measure. It now goes to the
house.

Only two amendments were
offered, one by Senator Hite
Huffaker, of Louisville, exempting
from the operation of the
bill, counties having cities of the
first, second, and third class.
Another by Senator J. F. Ford,
of Scott, exempting counties
containing fourth class cities.
Both were rejected decisively.

The vote on the Frost measure
follows:

Yeas—Senators Antle, Arnett,
Bale, Booles, Bosworth, Brock,
Clay, Coburn, Durham, Frost,
Glenn, Hiles, Hildreth, Mont-
gomery, Moody, Overstreet, Sal-
mon, R. H. Scott, Speer, Tunis,
Vincent, Welch, Williams and
Zimmerman.

No—Senators Bagby, Berk-
shire, Ford, Hall, Helm, Holo-
man, Huffaker, Knight, Mar-
shall, Moore, Robertson and
Sanders.

Senators J. F. Porter and M.
O. Scott were absent.

Senators Huffaker and Robert-
son, of Louisville, led the fight
against the Frost Bill, both mak-
ing extended speeches.

Salmon Predicts Prohibition

Senator Salmon, of Hopkins,
spoke briefly in support of the
bill. He predicted that the pro-
hibition wave would extend, and
that Kentucky would soon be-
come as "dry as a powder horn."
Louisville to the contrary not-
withstanding.

He urged the passage of the
bill, stating that he wanted a
sure enough county unit measure
and if that was not to be real-
ized, the entire "dry" law should
be repealed.

General Railroad News

Alfred H. Smith, president of
the New York Central Lines, ad-
dressing the Engineering Society
of Western Pennsylvania at
Pittsburg, expressed the highest
confidence in government com-
missions for railroad regulation.

"Serious thought," he said,
"is being given to the constantly
increasing cost placed upon rail-
roads by federal, state and mu-
nicipal regulations, with concern
as to where it is all going to end.
It appears most proper that the
government, through its commis-
sions, should pass upon the out-
lays made by these properties in
providing facilities for the ser-
vice of the public as a sound ba-
sis on which to charge the users
of these railroads for the trans-
portation sold to them, and yield
to investors a fair return if pri-
vate capital is to continue to be
called upon.

"There is criticism afoot that
the railroads have not used their
money judiciously. The effi-
ciency and integrity of railroads
must be judged by facts unal-
terable to all—their strength in
heavy steel rails, good ballast,
steel cars, modern signal system,
and other appurtenances that
constitute a safe transportation
machine whose efficiency is proved
by paying the highest wages for
services rendered by its em-
ployees, and furnishing transpor-
tation at the lowest cost. This
is a simple problem. Those who
confuse it and complicate it serve
only to hide the truth."

Equipment inquiries have been
abundant during the last few
days, and it is interesting to note
that many railroads which have
heretofore made almost all of
their own equipment have come
out into the open market. The
Canadian Pacific is in the mar-
ket for seventy locomotives, while
the Illinois Central is also in the
market for a like number of var-
ious types, and the Pennsylvania
will construct thirty engines in
their Altoona shops. The ac-
countant some time ago, which
first appeared in this column,
that the Union Pacific would ex-
pend approximately \$5,000,000
for 5000 freight cars, seems to
have stimulated the car market,
as the Chesapeake and Ohio is
asking for 2000 gondolas, the
Denver and Rio Grande is ask-
ing for 500 cars of the same type,
the Santa Fe is said to be in the
market for 1000 cars, the Hock-
ing Valley plans to buy 100 sixty
ton coal cars, the Missouri Pac-
ific 100 passenger and the Illinois
Central 500 refrigerator cars.

Railroads operating eastward
from Chicago and St. Louis are
planning to issue orders to their
passenger conductors to use great-
er care in collecting fares of
children whose ages range be-
tween 5 and 12 years. Many
complaints have been received
from train auditors that conduc-
tors have been negligent in en-
forcing the rule requiring the
payment of half fare for children
between these ages. The subject
will come up for discussion at a
meeting of the Central Passen-
ger Association tomorrow.

He knows that there are drugs just
as superior one brand to another as there
are poor and good grades of food or cloth-

The drugs we carry are the very best
science produces.

We guarantee this.

Ask your doctor to find out the char-

THICK, GLOSSY HAIR FREE FROM DANDRUFF

Girls! Try it! Hair gets soft, fluffy and luxuriant at once—No more falling hair

If you care for heavy hair, that glistens with beauty and is radiant with life; has an incomparable softness and is fluffy and lustrous, try Danderine.

Just one application doubles the beauty of your hair, besides it immediately dissolves every particle of dandruff; you cannot have nice, heavy, healthy hair if you have dandruff. This destructive scurf robs the hair of its lustre, its strength and its very life, and if not overcome it produces a feverishness and itching of the scalp; the hair roots furnish, loosen and die; then the hair falls out fast.

If your hair has been neglected and is thin, faded, dry, scruffy or too oily, get a 25c bottle of Knowlton's Danderine at any drug store or toilet counter; apply a little as directed and ten minutes after you will say this is the best investment you ever made.

We sincerely believe, regardless of everything else advertised, that if you desire soft, lustrous, beautiful hair and lots of it—no dandruff—no itching scalp and no more falling hair—you must use Knowlton's Danderine. If eventually—why not now?

Sick Women Made Well

Reliable evidence is abundant that women are constantly being restored to health by Lydia E. Pinkham's Vegetable Compound

The many testimonial letters that we are continually publishing in the newspapers—hundreds of them—are all genuine, true and unsolicited expressions of heartfelt gratitude for the freedom from suffering that has come to these women solely through the use of Lydia E. Pinkham's Vegetable Compound.

Money could not buy nor any kind of influence obtain such recommendations; you may depend upon it that any testimonial we publish is honest and true—if you have any doubt of this write to the women whose true names and addresses are always given, and learn for yourself.

Read this one from Mrs. Waters:

CAMDEN, N.J.—"I was sick for two years with nervous spells, and my kidneys were affected. I had a doctor all the time and used a galvanic battery, but nothing did me any good. I was not able to go to bed, but spent my time on a couch or in a sleeping chair, and soon became almost a skeleton. Finally my doctor went away for his health, and my husband heard of Lydia E. Pinkham's Vegetable Compound and got me some. In two months I got relief and now I am like a new woman and am at my usual weight. I recommend your medicine to every one and so does my husband."—Mrs. TILLIE WATERS, 1135 Knight St., Camden, N.J.

And this one from Mrs. Haddock:

UTICA, O.K.A.—"I was weak and nervous, not able to do my work and scarcely able to be on my feet. I had backache, headache, palpitation of the heart, trouble with my bowels, and inflammation. Since taking the Lydia E. Pinkham's Vegetable Compound I am better than I have been for twenty years. I think it is a wonderful medicine and I have recommended it to others."—Mrs. MARY ANN HADDOCK, Utica, Oklahoma.

Now answer this question if you can. Why should a woman continue to suffer without first giving Lydia E. Pinkham's Vegetable Compound a trial? You know that it has saved many others—why should it fail in your case?

For 30 years Lydia E. Pinkham's Vegetable Compound has been the standard remedy for female ills. No one sick with woman's ailments does justice to herself if she does not try this famous medicine made from roots and herbs. It has restored so many suffering women to health.

Write to LYDIA E. PINKHAM MEDICINE CO. (CONFIDENTIAL) LYNN, MASS. for advice. Your letter will be opened, read and answered by a woman and held in strict confidence.
